Dear Supervisors:

**APPROVE AND DELEGATE
AUTHORITY TO EXECUTE A MEMORANDUM OF UNDERSTANDING WITH THE
LOS ANGELES UNIFIED SCHOOL DISTRICT AND OTHER SCHOOL DISTRICTS
FOR COLLABORATION AND STRATEGIC PLANNING FOR HEALTH CARE
INITIATIVES TO ENHANCE AND EXPAND SCHOOL HEALTH CENTERS,
WELLNESS CENTERS AND OTHER HEALTH CARE INITIATIVES
(ALL DISTRICTS AFFECTED) (3-VOTES)**

SUBJECT

Approve and authorize the Chief Executive Officer (CEO), or his designee, to enter into a non-financial Memorandum of Understanding (MOU) with the Los Angeles Unified School District (LAUSD) and other school districts for strategic partnerships with School Health Centers (SHC)/Wellness Centers (WCs) and other health care initiatives to improve health outcomes for children and their families.

IT IS RECOMMENDED THAT THE BOARD:

1. Approve and delegate authority to the CEO to execute (Attachment A) a MOU between the County and LAUSD to establish a collaborative and strategic partnership that will enhance and expand SHCs/WCs and the County's health care initiatives;
2. Delegate authority to the CEO, or his designee, to prepare and execute amendments as necessary to enhance the goals of the non-financial agreements/MOUs between the County of Los Angeles and LAUSD; and
3. Delegate authority to the CEO, or his designee, to negotiate and execute any future non-financial MOUs and amendments with other Los Angeles County school districts for strategic partnerships substantially similar to this Agreement.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Execution of this MOU will outline the framework for a strategic partnership between the County and LAUSD to jointly support the ongoing implementation and enhancement of SHCs/WCs and other health care initiatives such as Integrated School Health Centers (ISHCs) and other services provided by County departments on LAUSD campuses; and services provided by LAUSD departments at County offices or clinics. This MOU may also serve as a template with other school districts for similar health care initiatives.

On March 10, 2009, the Board approved a motion by Supervisors Mark Ridley-Thomas and Gloria Molina directing the CEO and the Departments of Mental Health (DMH), and Health Services (DHS) to create an implementation plan for developing at least five ISHCs projects. As a result, the County Work Group, led by the CEO, DHS, DMH, and the Department of Public Health (DPH) have developed and are implementing the plan for the County's ISHC projects. As part of the implementation plan, the creation of this non-financial MOU establishes partnership parameters to guide the development of: (1) strategies for implementing and sustaining health care initiatives; (2) coordinating service delivery and developing policy recommendations to integrate service delivery; and (3) facilitating legally permitted exchange of health and education information via client authorization; creating shared performance measures and outcomes, and building upon existing County and school district relationships.

In addition, the County has entered into various partnerships with LAUSD on health care projects, which have not been reviewed in the aggregate as integral components of a larger strategic partnership. The framework of this MOU will allow both agencies to conduct that review in a comprehensive manner, which should lead to better evaluation of outcomes and achievement of goals. Attached is a list of those projects identified to date by the County departments and LAUSD (Attachment B), in working together to develop this MOU.

Development of this MOU is also consistent with one of the key goals from the 2011 *Education and Health Policy Summit*, which called for the development of a partnership between LAUSD and the County to identify and pursue the areas of system alignment, desired outcomes and next steps to advance the creation, expansion, and integration that would jointly benefit our agencies. Summit participants included Supervisor Ridley-Thomas, LAUSD Superintendent John Deasy, Los Angeles County Superintendent of Schools Arturo Delgado, and County DHS, DMH, DPH, and CEO representatives, and key members of the School Health Centers Policy Roundtable.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

This partnership with LAUSD promotes the Countywide Strategic Plan Goal 3 - Integrated Services Delivery - by maximizing opportunities to measurably improve client and community outcomes and leverage resources through the continuous integration of health, community, and public safety services.

FISCAL IMPACT/FINANCING

This is a non-financial MOU. The County will not incur any additional costs to establish this partnership with LAUSD.

Any program specific projects which are developed as part of this strategic partnership and which may have a financial impact will be presented for consideration by the Board in the future.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

No provisions of the attached MOU shall be construed in a manner that is inconsistent with the California Education Code and/or any other laws pertaining to the sharing of information such as the Family Educational Rights and Privacy Act (FERPA) and the Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule. All records and information maintained by both the County and LAUSD will be kept confidential pursuant to Education Code Section 49060 and any other related provisions of federal and State Law.

The attached MOU has been reviewed by County Counsel and approved as to form and signed by the LAUSD designee.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Establishing this partnership between the County and LAUSD creates a foundation upon which the County of Los Angeles can successfully implement SHCs, ISHCs and other health care initiatives, by building upon existing relationships and resources. In addition, this framework can be replicated in the future to forge partnership agreements with other school districts to further the expansion of joint health care initiatives. Most importantly, the goal is for children to receive better access to services such as behavioral and medical health, health education and promotion, dental, wellness, and

The Honorable Board of Supervisors

WELLNESS CENTERS AND OTHER
HEALTH CARE INITIATIVES**

This Memorandum of Understanding ("MOU") is made and entered into this ____ day of _____ 2013 ("Effective Date") by and between the County of Los Angeles and the Los Angeles Unified School District.

RECITALS

Whereas, the County of Los Angeles ("COUNTY") is a political subdivision of the State of California, is governed by the Board of Supervisors, and includes the Chief Executive Office and the Department of Health Services, the Department of Mental Health, and the Department of Public Health; and

Whereas, the COUNTY provides a broad range of services to COUNTY residents through its departments, its contractors and other affiliations that include integrated health care services, physical health care services, behavioral health services, public health services, community health services, and a private/public partnership structure that strives to enhance optimal health and well-being and respects the diversity of the community and recognizes the legal authority of the parent or other legally authorized person to make both health and education decisions regarding their child; and

Whereas, the Los Angeles Unified School District ("LAUSD") is a public entity dedicated to providing equitable opportunities that educate, challenge and inspire students in Los Angeles, California of all ages, talents and ability levels while preparing each with the skills required to adapt and succeed in an ever-changing world and to be college and career ready; and

Whereas, the COUNTY and LAUSD ("Parties") understand that students that are in good physical and emotional health and in a supportive and safe environment

demonstrate improved concentration and attendance, resulting in improved academic performance; and

Whereas, the Parties are desirous to enter into this MOU, and related protocols and procedures to demonstrate their commitment to student/family health and well-being; clarify the principles of and for information sharing; establish a formal means of working together and sharing health and related social service and educational information among and between each other to improve and enhance the delivery of coordinated services to students, families, and community members; and

Whereas, the Parties understand and acknowledge that health and educational information concerning students and families may be subject to the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), the Family Educational Rights and Privacy Act ("FERPA"), and/or other state confidentiality laws; and

NOW THEREFORE, the Parties agree to enter into this MOU, and abide by its provisions, to demonstrate their commitment to working together collaboratively to address the educational, physical and overall well-being of County residents by providing school-based/school-linked, wellness and related social service initiatives, including on LAUSD campuses.

I. PURPOSE AND PRINCIPLES

- A. The Parties acknowledge that a major goal of school-based and school-linked health and wellness services is to offer students and their families enhanced access to health services including physical health, oral health, behavioral health, health education and promotion, injury prevention, and related social services by building partnerships specifically between the Parties, and more broadly between the education and health care communities, including parents or other legally recognized authority.
- B. The Parties commit to work in partnership to develop standardized authorizations and support mutually beneficial policies, protocols and procedures that foster communication and reduce fragmentation between their respective school-based health and wellness services, medical services, mental health and public health programs, and preventive supports provided directly, or through contracted agencies or other affiliated entities on or near to school campuses.
- C. The Parties agree to work together to implement strategies and tools and develop policies, protocols and procedures that would permit, to the extent it is legally permissible to do so, the sharing of data and other information that facilitates the development of a seamless service delivery system, joint program planning, evaluation of model effectiveness, health plan enrollment and applications for funding that will create a comprehensive continuum of health services in as many LAUSD schools as possible.

- D. The Parties agree to jointly and proactively identify and pursue legislative opportunities and strategies to facilitate the exchange of information for the purposes of delivering a comprehensive continuum of health and related social services to students, families, and community members.
- E. The Parties recognize that there are existing Agreements and/or MOUs wherein COUNTY departments provide health care services on LAUSD campuses, and LAUSD departments provide health and wellness services at COUNTY clinics or offices, and that such agreements or MOUs may benefit from a new, comprehensive and strategic analysis to enhance the delivery of existing health care and related social services.
- F. The Parties recognize the importance of coordination to maximize resources and leverage funding opportunities to expand access to school-based and school-linked health, wellness and related social services by students, their families and members of the community.

II. RESPONSIBILITIES

The Parties to this MOU agree to the following services and assistance subject to the availability of resources, as determined by each of the Parties:

A. SUPPORT AND MONITOR MOU IMPLEMENTATION

- 1. Provide leadership and technical support to their respective organizations and staff to implement this MOU.
- 2. Recognize and respect the authority and autonomy of each Party's staff to deliver Health and Wellness Services (HWS) and related social services.
- 3. Participate in the development of a coordinated/integrated continuum of HWS that is consistent with the needs and resources of each Party.
- 4. Assign School-Health Center/Wellness Center (SHC/WC) Liaison(s) where feasible and mutually define their roles, such as:
 - a. Monitor the implementation of this agreement and take corrective actions as needed.
 - b. Maximize the coordination of related HWS and resources including those provided by contracted entities and affiliated networks.
 - c. Serve as the primary source of information for SHC/WC staff regarding programs and services available to students and community members.

- d. Facilitate linkages to HWS and related social services whenever referrals are appropriate or are indicated.
- e. Support health plan enrollment efforts by facilitating linkages to contracted entities conducting outreach activities.
- f. Secure the participation of specialized staff from their respective organization as needed.

B. DEVELOP STRATEGIES FOR IMPLEMENTING AND SUSTAINING HEALTH CARE INITIATIVES

While this is a non-financial MOU, the Parties are mutually committed to exploring ongoing opportunities to augment the health care services provided at SHCs/WCs and agree to:

- 1. Jointly pursue new HWS-related funding opportunities, and wherever possible, leverage existing HWS funds to support the implementation and evaluation of HWS.
- 2. Assist each other, and to the extent possible respective contracted agencies (and any affiliated entities, if applicable) to maximize and simplify third party billing subject to legal requirements and appropriate authorizations.
- 3. Explore the possibility of supporting capital improvements and service expansion at selected sites.

C. COORDINATE SERVICE DELIVERY AND DEVELOP POLICY RECOMMENDATIONS

The Parties agree to participate in the following activities and forums to maximize the delivery of coordinated services; assist one another to identify systemic barriers and solutions for integration models; and develop strategies and policies to sustain the delivery of preventive and comprehensive HWS at SHCs/WCs, as outlined below:

- 1. Facilitate and sustain collaboration among staff/liaisons of both Parties (e.g., Organizational Facilitators, school nurses, and County representatives) and promote the seamless delivery of HWS to students, families and community members by:
 - a. Develop and maintain a comprehensive list of existing agreements and/or MOUs wherein COUNTY departments provide health care services on LAUSD campuses and LAUSD departments provide health and wellness services at COUNTY clinics.

- b. Develop a review process of these agreements/MOUs to determine how best to structure and maximize coordination and alignment of resources whenever planning future programs or when renewing existing agreements in order to make appropriate recommendations to such agreements.
 - c. Develop appropriate authorizations and tools to ensure permissible exchange of information (as described in Section II D) and implement policies and procedures to ensure each party receives the information they are authorized to obtain.
 - d. Coordinate staff trainings regarding the permissible HIPAA-FERPA information sharing policies.
 - e. Develop policies, procedures, and/or protocols that encourage referrals for HWS and related social services among and between the Parties and their respective contracted/community-based service partnerships.
2. Participate on school-specific SHC/WC Planning and Coordination Bodies to:
- a. Monitor and support the rollout of SHCs/WCs.
 - b. Maximize the coordination of services, resources, and client referrals.
 - c. Ensure that protocols and procedures for the coordinated delivery of services are adhered to.
 - d. Identify operational barriers; develop proposed solutions/recommendations to maximize the delivery of coordinated services; and inform the appropriate organizations of identified barriers.
3. To the extent that there are resources to do so, support Operations-Level Bodies, such as the LAUSD/LA Trust Wellness Center Learning Collaborative, to:
- a. Implement feasible operational solutions and recommendations to barriers identified by school-specific planning and coordination groups.
 - b. Establish best practices for improving the delivery of preventative and health care services to LAUSD students and community members.
 - c. Develop cost effective strategies that promote and strive to achieve comprehensive access to HWS services.
 - d. Support LAUSD/LA Trust's Wellness Centers.

- e. Support SHCs/WCs data collection and evaluation plans and related continuous quality improvement processes.
 - f. Generate policy recommendations to be considered for implementation by both executive-level staff of both Parties and by School Health Center Policy Roundtable members.
4. Participate on the Countywide School Health Coalition to:
- a. Improve school and community wellness outcomes by sustaining and enhancing SHCs/WCs.
 - b. Support the school-health-learning community to exchange lessons learned and build on best practices to improve the delivery of preventative and health care services to all students.
5. Continue to serve as members of the Countywide School Health Center Policy Roundtable (Roundtable) and support its role as the policy development and policy recommendation body for enhancing the sustainability of SHCs/WCS and providing high-quality, HWS-related activities outlined in this MOU.
6. Ensure that all future programs and initiatives considered by the Roundtable are based on a comprehensive/strategic review of existing COUNTY-LAUDS agreements as outlined in Section II C.

D. INFORMATION SHARING

To facilitate the exchange of relevant health and education information, the Parties agree to develop standard authorization forms and processes to enable parents or other persons with legal authority to permit the lawful exchange of health and education information.

1. To this end the parties acknowledge that:
- a. Educational information is generally protected by law, including but not limited to FERPA.
 - b. Health information is generally protected by law, including but not limited to HIPAA, the Confidentiality of Medical Information Act, and Welfare and Institutions Code section 5328 et seq.
 - c. A standardized Authorization Form for the student's Parent/Legal Representative to sign has been developed, which meets the applicable legal standards necessary to permit the sharing of specific student information.

- d. Neither the Authorization Form nor this MOU place any condition on service delivery or pose a requirement on either party to obtain authorization for the disclosure of health information or the release of educational information, if either party determines such disclosure and/or release of information is otherwise required or permitted by law.

2. To this end the parties agree to:

- a. Utilize and accept the Authorization Form from the Parent or Legal Representative to ensure the sharing of specific student information.
- b. Revise this Authorization Form as necessary to comply with changes in the law.
- c. Monitor State and federal laws that may impact the ability of either Party to share information and advocate for appropriate legislative changes necessary to overcome barriers or enhance the ability of the Parties to share relevant information with each other.
- d. Jointly and proactively identify and pursue legislative opportunities and strategies to facilitate information sharing among the Parties for the purposes of delivering a comprehensive HWS and related social services to students, their families and community members.

E. PARTICIPATE IN DATA COLLECTION AND EVALUATION ACTIVITIES

- 1. The Parties shall, based on their legal authority to receive such information, maintain the confidentiality of all reports, information and data received, prepared or assembled pursuant to this MOU and shall not disclose such information unless required by law.
- 2. The Parties agree to work closely together to design program evaluation activities related to effectiveness of the SHC/WC model as outlined in this MOU, and to collect and provide access to aggregate child, adult and community health indicators, student, teacher, school staff and fiscal information, as allowable under HIPAA and/or FERPA, or as otherwise permitted.

F. PROVIDE SERVICE INFORMATION AND TECHNICAL ASSISTANCE

The Parties agree to:

- 1. Make available to one another updated digital resource directories of respective programs and services that are available to students, families, and

community members. The directories will be updated at least annually; and will identify the provider, location and scope of each program, HWS or social service.

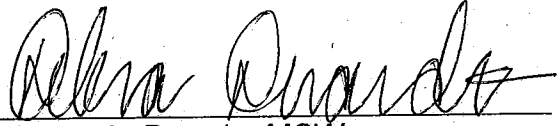

2. Provide service and educational materials and support as needed.
3. As needed, assist one another with the development of HWS policies and practices.
4. If requested, assist with the development of hiring criteria for the selection of LAUSD HWS staff and selection of clinical partners (contracted entities) to serve at SHCs/WCs.

G. GENERAL TERMS

1. Either Party may terminate this MOU by giving ninety-day (90-day) prior written notice to the other Party.
2. It is mutually agreed that this MOU shall be reviewed annually and may be modified or amended upon the written mutual consent of the Parties hereto.

IN WITNESS THEREOF the Parties hereto have executed this
MOU as of the _____ day of _____ 2013.
